

More care. Less paperwork.

Truli for Health is a new kind of health care company.

It offers simple and affordable HMO health plans to small and mid-sized employer groups in South and Central Florida. A local network of high-quality providers will work together to deliver personalized patient care.

Patient-focused care

With Truli at your side, you take the lead in coordinating care to create the best health care experience for your patients.

Since Truli is an open access HMO and no referrals are needed, specialty providers will let the primary care physician know when they see a Truli patient so you can work together to coordinate the patient's care plan.

Patient relationship redefined

Truli offers a simpler approach to health care by stripping away layers of complexity - letting you focus on your relationship with the patient.

We'll provide support as you work one-on-one with your patients to develop personalized, proactive care plans and treatment options to help them get well and stay well.

A network that's local

Your Truli patients will get high-quality care right in their own community.

Truli has joined forces with other like-minded health care professionals to create a **local, high-performing medical team** to care for your patients.

Working with you

Truli equips you with the tools you need to succeed, so together we can deliver the best possible coordinated care.

With Truli,
YOU take the
lead in making
patient care
decisions.
